About Us

Over the past 14 years of extensive research and experience in the education industry, KIDZ TREEHOUSE has developed a premium student care programme focused on the holistic development of children using nature to harness the power of our children's creativity to develop their character and make the world a better place.

As the first ECO-inspired student care in Singapore, Kidz Treehouse focuses on developing beautiful character in our children and building an environmentally sustainable future.

What is an ECO Student Care?

Being the first Eco-inspired student care, we love to bring our students closer to nature.

We connect children with nature to develop excellent character, through the Social Emotional Excellence Development (S.E.E.D.™) System. The S.E.E.D.™ System places the heart of a child at the centre of our programme development.

By incorporating this programme, we wish for children to be inspired by a place where they can play and imagine in nature.

Kidz Treehouse is committed in moulding children who will not only grow up to be responsible stewards of the Earth but who will also be our future Global Changemakers.
